Project for a 5 bedroom detached villa on a large plot

This is a plot of land of 3940m2 with an existing older villa on it, located close to the entrance to Vale do Lobo with a project for a brand new villa. A private plot of just under an acre with a modern project concept design to extend and modernise an existing 3 bedroom 195m2 villa to a 380m2 luxury contemporary 5 bedroom villa.

The location is unique being hidden down a discreet track within a countryside setting amongst nature, yet on the door step of the entrance to Vale do Lobo, the golf club reception, the beach and the Vale do Lobo praca with its restaurants and bars. The plot is completely private, fully enclosed and with an abundance of pine trees and with its own borehole.

This exciting unique project has yet to be submitted to the camara so therefore provides a buyer the opportunity to personalise and finish the villa to their own taste. The architects have used the existing villa as the foundation to keep the costs low with incorporating it within the new villa...
