Large investment Villa with sea views

Large investment Villa with sea views. This is an excellent opportunity to finish off the extensive work already completed. It is a very large villa with an indoor pool and would be great project for investment purposes.

Despite some parts of the basement needing completion, the basic structures are all in place. The potential for this property is huge and should be considered by investors to create a superb villa for personal use or even commercial opportunities.

This property has commanding views from a small hill in the Benfarras area, which is beautifully located between Boliquieme and Vale Judeu. It has quick and easy access into Vilamoura only 5
