High Quality Townhouses in Fuseta

Brand new three-bedroom high-quality townhouses located within walking distance to the beach and the picturesque village of Fuseta – one of the last coastal town secrets in the East Algarve and up-and-coming real estate markets in Southern Europe. Fuseta is a relatively unspoilt town in the Algarve region of southern Portugal. The harbour is packed with colourful fishing boats and ferry boats departing to Ilha da Armona, one of the five sandbar islands of the Ria Formosa Natural Park. Along the harbour, there is a beautiful promenade lined with cafés and restaurants offering Portuguese seafood and other specialities. A true taste of the Portuguese lifestyle. An ideal investment if you are looking for a more traditional and typical local town away from the usual tourist resorts.
