Unique and rare opportunity to redevelop two townhouses in centre of Loule with approved project

This great project features two buildings ideal for redevelopment in the historical centre of Loule, designed by the renowned architect Matias Dos Reis. The council planners have recently approved the architectural license for constructing two 2-story townhouses, each boasting its own back garden and individual garage, which is a rare and unique feature and opportunity in the town of Loule.

UNIT A:

This unit has a private entrance to the main entrance hall with access to the garage, stairs to the first floor and a social bathroom.

The hall continues in the dining room and on to the lounge and kitchen, with a modern open-plan design. Both the lounge and the dining room have direct access to a private terrace/garden, which is an ideal size for outside dining and a small garden. Continuing upstairs, there is the landing which
