Spacious 4 Bedroom Urban Retreat with Rooftop Pool in Faro

Located in the vibrant heart of Faro, this newly built residential project redefines contemporary urban living. With completion anticipated in December 2025, the development offers a rare opportunity to own a high-specification home just steps from the marina, historic city centre, and key transport connections—delivering an exceptional lifestyle in one of the Algarve's most dynamic coastal cities.

The project comprises a selection of spacious one, two, three, and four bedroom apartments, each designed with open-plan layouts, expansive balconies, and elegant finishes. Every residence is fitted with modern comforts including underfloor heating, air conditioning, smart home systems, and premium kitchen appliances. Floor-to-ceiling windows ensure bright and airy interiors, with many units enjoying views over the cityscape or the Ria Formosa lagoon.
